Clara Jones
SECRETARY OF STATE

ADMINISTRATION
BUREAU OF ELECTIONS
OPERATIONS DIVISION
(505) 827-3600

December 31, 1986

Dear friends:

As Secretary of State, I know how important it is to candidates, the media and persons analyzing voting trends to have complete voter registration and election information available in the Election Returns book. In order to provide the public with more information, I have continued to develop additional reports. Some of this information is included in this year's Election Returns book. In addition, I have provided a greater in-depth analysis of voter registration. The public is welcome to stop by the Secretary of State's office to look at all the information available.

The format and content of past election books underwent very little change over the years. The Secretary of State's office has developed an extensive Voter Registration Report which continues to list voter registration by party and by county. The report was expanded to include the voter registration by party and by precinct; by congressional districts; by legislative district and within the legislative district, by county for multi-county districts; by judicial district; and by state school board district. The Secretary of State's office has provided the number of registered voters for each elected office, and the percentage of voter turn-out for each office for each county. Our office also calculated and included a listing of the percentage of votes cast for each candidate in all major races.

Information contained in this book was available to us ten hours after the polls on election evening. Once the canvass and the official election results were audited and certified, these reports were again updated to insure accuracy of the information submitted by the counties. Many persons interested in the election returns were able to make immediate use of the election information.

With the advent of the Shouptronic Voting Machine in New Mexico, we saw increased participation of the electronic voting equipment. In the 1984 general election, Cibola County used only the electronic voting machines, while Curry and San Juan counties used the machines in some of their precincts. However, in the 1986 general election, Cibola, Grant and Lea counties used only the electronic machines. Nine other counties used the machines in some of their precincts. I envisage that eventually all official election returns will soon be printed from computerized data.

The official election returns book is issued every two years (each election year). After the primary election there is a Primary Elections Returns book issued which has a reproduction of the primary election returns. Following the general election, there is an official election returns book issued which has a reproduction of both the primary election returns and the general election returns.

It has been very satisfying and rewarding to serve you as your Secretary of State this past four years.

Respectfully yours,

Clara Jones

Clara Jones
Secretary of State

November 24, 1986

State Canvassing Board
State Capitol
Santa Fe, New Mexico

We have examined the summary reflecting the results of the General Election held November 4, 1986, for all statewide races, district legislative contests for the New Mexico Senate and House of Representatives, the races for district judgeships and the State Board of Education races. We have also examined the related county summaries of these contests submitted to the Secretary of State by the various County Clerks.

We have applied certain procedures, as discussed below, to the State Summary reflecting results of the General Election held November 4, 1986, solely to assist you in your certification of election results. The procedures were as follows:

1) We performed mathematical accuracy tests of selected precincts and county summaries and of the State Summary.

2) We performed tests for accuracy in transferring totals from voting machine tabulations and lists of write-in votes to precinct totals, from precinct totals to county summaries and from county summaries to the State Summary.

In performing the preceding procedures, any discrepancies noted were corrected by the County Clerks and State Bureau of Elections personnel.

In connection with our performance of the procedures referred to above, no matters came to our attention that caused us to believe that the final State Summary should be adjusted. However, we make no representations as to the sufficiency of such procedures for your purposes.

We have examined the summary reflecting the results of the Primary Election held June 3, 1986, for all statewide races, district legislative contests for the New Mexico Senate and House of Representatives, the races for district judgeships and the State Board of Education races. We have also examined the related county summaries of these contests submitted to the Secretary of State by the various County Clerks.

We have applied certain procedures, as discussed below, to the State Summary reflecting results of the Primary Election held June 3, 1986, solely to assist you in your certification of election results. The procedures were as follows:

1) We performed mathematical accuracy tests of selected precincts and county summaries and of the State Summary.

2) We performed tests for accuracy in transferring totals from voting machine tabulations and lists of write-in votes to precinct totals, from precinct totals to county summaries and from county summaries to the State Summary.

In performing the preceding procedures, any discrepancies noted were corrected by the County Clerks and State Bureau of Elections personnel.

In connection with our performance of the procedures referred to above, no matters came to our attention that caused us to believe that the final State Summary should be adjusted. However, we make no representations as to the sufficiency of such procedures for your purposes.

Write-In Candidate Slides

WRITE-IN CANDIDATE: To write in the name of a "declared" write-in candidate, lift up the write-in slide cover bearing the numeral corresponding to the designated office and write-in the name of the declared write-in candidate. Once a voter lifts a write-in slide, however, he cannot change his mind and use a candidate pointer in that office. This prevents overvoting.

Muesca de Candidato Write-In

CANDIDATO WRITE-IN (no en la lista): Para escribir el nombre de un candidato "declarado" write-in (no en la lista) levante la lamina write-in (no en la lista) que tiene el numero correspondiente al puesto designado y escriba el nombre del candidato declarado write-in (no en la lista). Una vez que el votante levante la lamina write-in (no en la lista), no obstante, el no puede cambiar de opinion y usar un indicador de candidato en ese puesto. Esto previene el votar otra vez.

INSTRUCTIONS TO VOTER

1. **Move the RED HANDLE completely to the RIGHT.** This closes the curtain and unlocks the machine for voting.
2. **Turn down a voting pointer over each candidate's name you wish to vote for from this position** **to this position** 
IMPORTANT: You can make as many changes as you desire while the RED HANDLE is to the RIGHT. The machine is arranged so you cannot turn down more than the proper number of voting pointers for each office, so you cannot spoil your ballot by voting for too many candidates. To make a change simply push the pointer back up and make another selection.

WRITE-IN CANDIDATES: To write-in the name of a candidate in a Primary Election, the candidate must be a DECLARED WRITE-IN CANDIDATE.

To write in the name of a "declared" write-in candidate, lift up the write-in slide cover bearing the numeral corresponding to the designated office and write-in the name of the **declared** write-in candidate. Once a voter lifts a write-in slide, however, he cannot change his mind and use a candidate pointer in that office. This prevents overvoting.

IMPORTANT: Any name written in other than the name of a declared write-in candidate will be held invalid and shall not be counted.

3. **Once you have made your selections, LEAVE THE POINTERS DOWN and move the RED HANDLE completely to the LEFT.** This records your vote, clears the machine, and then opens the curtain. No one outside the machine can tell how you have voted.

YOU MUST NOT LOITER. Each voter in New Mexico is allowed a maximum of three and one-half (3½) minutes in which to vote. Vote promptly and leave the machine so the voter following you may have his turn.

INSTRUCCIONES PARA VOTAR

1. **Mueva la PALANCA ROJA completamente a la DERECHA. Esta cierra la cortina y abre la maquina para votar.**
2. **Baje el indicador de votar sobre cada nombre del candidato por el cual usted desea votar por esta posición**  **a esta posición** 
IMPORTANTE: Usted puede hacer cuantos cambios como usted desea mientras la PALANCA ROJA esta a la derecha. La maquina esta arreglada para que usted no pueda bajar la palanca más que en el numero apropiado de los indicadores de votar para cada puesto, para que así usted no pueda echar a perder su boleta al votar por muchos candidatos. Para hacer un cambio simplemente empuje el indicador otra vez para arriba y haga otra selección.

CANDIDATO WRITE-IN (no en la lista): Para escribir el nombre de un candidato en una Elección Primaria, el candidato debe ser un CANDIDATO DECLARADO WRITE-IN (no en la lista).

Para escribir el nombre de un candidato "declarado" write-in (no en la lista) levante la lámina write-in (no en la lista) que tiene el numero correspondiente al puesto designado y escriba el nombre del candidato **declarado** write-in (no en la lista). Una vez que el votante levante la lámina write-in (no en la lista), no obstante, el no puede cambiar de opinión y usar un indicador de candidato en ese puesto. Esto previene el votar otra vez.

IMPORTANTE: Cualquier nombre escrito que no sea el nombre de un candidato declarado write-in (no en la lista) anulará la boleta y no será contada.

3. **Una vez que usted haga sus selecciones, DEJE LOS INDICADORES ABAJO y mueva la PALANCA ROJA completamente a la IZQUIERDA.** Esto registra su voto, limpia la máquina, y entonces abre las cortinas. Nadie fuera de la máquina se da cuenta como usted voto.

NO DEBE PERDER TIEMPO. Todo votante en Nuevo México se le permite un máximo de tres y medio (3½) minutos para poder votar. Vote prontamente y deje la máquina para que así el votante que le sigue pueda tener su turno.
